Alcohol and Violence

Describe or draw an incident where you have become violent or aggressive (including verbally aggressive) after drinking alcohol:

Can you identify anything that happened in the run-up to the incident, such as argument before you went out? How were you feeling and what were you thinking just before?

Where were you and who were you with?

How much had you drunk?

What part do you think alcohol played in the incident? Had you taken any other drugs too?

What could you do differently to stop it happening again?

How useful was this map and discussion?

NOT Useful 1 - 2 - 3 - 4 - 5 - 6 - 7 - 8 - 9 - 10 VERY Useful
